

CTSi has been working hard with community groups, charities, voluntary and other third sector organisations based in communities across Clackmannanshire to identify benefits which could be delivered to local people through the use of community benefit clauses in public sector contracts.

Below is a list of things that local groups and communities need which bidding companies can use to help them develop a community benefit offer for their bids.

If you would like any assistance or have any queries about using this list please contact Sarah on 07779 111176.

| Organisation                          | What they do and who they support  | What they need help with   |
|---------------------------------------|--|--|
